Progress reports on the three Exceptional Intelligence Analysts under the purview of the Federal Research Division are forwarded as requested in the referenced letter. The progress report on [] is a quarterly report covering her program since its inception on 1 July 1983. The other two are final reports because the analysts, [] technically completed their programs and returned their regular duties on 1 January and 1 June 1983, respectively. However, both analysts had occasion to briefly extend their sabbaticals beyond the time originally approved. The two final reports have appended to them copies of articles written or presentations made during the period of the programs. It should be noted that both analysts are continuing on their own time to conduct research on the subjects of their programs and expect to produce additional material of value to the Intelligence Community.
